GENTLEMEN: In compliance with the request contained in your communication of the 3d instant, a reexamination of the question, whether those engaged in the removal of the Cherokees are entitled to bounty land under the provisions of the first section of the act of March 3, 1855, was made by this Department, and I concluded to refer the matter to the Attorney General of the United States for his official H. This opinion is received, and is to the effect that the language of said act, to wit: " Each of the survivors of the militia cr volunteers, or State troops of any State or Territory called into military service and regularly mustered therein, and whose services have been paid by the United States," intends not only militia or volunteers whose military service was performed under the general command of the United States and in time of war, but also such as rendered military service, whether in war or with salt not, and whether under the immediate authority of H. At that time one of my servants had been afflicted with fits about twelve years. When reaching home, I commenced with the pills according to directions. I do not think she has had one since. My wife, though, is somewhat induced to believe she may have had one only. Enclosed you will find five dollars, for which you will please forward me two boxes. I suppose you can forward them by mail. Your compliance will oblige me. Yours respectfully.

Dr. Hance's Enileptic Pills are also a sovereign remedy for every modification of nervous diseases.
